AUSGABE APRIL 2024

## Review USA Conference 2024

For the 8<sup>th</sup> time the USA Conference took place on 7<sup>th</sup> and 8<sup>th</sup> March 2024 at the Grand Hotel Falkenstein near Frankfurt. Once again, the interest on the conference with the current topics to U.S. investments was of very high demand and approximately 120 institutional investors, fund providers, real estate service providers and project developers participated. Impressive was the participation from more than 50 international guests from abroad especially from the U.S. and Canada.

On the 2 conference days 25 sponsors have been engaged and 39 international experts presented their experiences, insights and interesting investment strategies in speeches and panel discussions.

A two-hour time slot was used for the now very well-established networking aspect – the face-to-face meetings. These were once again much appreciated for first discussions and negotiations between the participants.

The evening of the first conference day started with the dinner at the hotel restaurant meanwhile all enjoyed long-lasting conversations in a very nice atmosphere.

We received lots of positive feedback and valuable suggestions for next year's conference. Now, we are already looking forward to the next USA conference in 2025.
